This is a crust classic back in print. Five songs recorded in 1989, during the same session in which **DOOM** recorded their brilliant split LP with **NO SECURITY**. Considered by many to be their best early material. This classic EP contains the songs "Means to an End," "Relief, Pt. 2," and of course, "Police Bastard." This was the second release ever by Profane Existence Records and is considered by many to be a masterpiece. There are at least five different versions of the cover, but all of the records were made using plates from the original masters.

## INFORMATION:

**Artist Hometown:** Huntington, West Virginia

**Key Markets:** USA/EUROPE

**For Fans of:** NAUSEA, WOLFBRIGADE, ANTISCHISM

Every once in a great while, a new band comes along with such intense fury that they captivate all who hear and see them – **APPALACHIAN TERROR UNIT** is one such band. Hailing from the mountains of West Virginia, **ATU** belt out a thunderous chorus of eco-awareness and chastisement for mankind's destructive ways (or at least those who are in control). Musically they combine classic punk, crust, and a hint of metal into a sound that's likened to later era **NAUSEA**, totally reinforced by the strong female vocals throughout. Adding to the over-all amazing quality of this EP are additional touches of brilliance, like the brutally powerful recording by Jay at the Jam Room in South Carolina (**ANTISCHISM, DAMAD**, etc.) and cover / poster art by Marald. Normally this sort of praise for a job well done is reserved for bands that have been around the block once or twice—not for the debut EP from a band barely formed a year before recording. This is the band's first 7" release and came out in 2007 and sold over 2,000 copies within the first year. The vinyl has long been out of print and is one of the most sought after records in Profane's history. Since **ATU's** inception this energetic band has completed numerous tours of the United States and Europe and released a series of strong selling records and CD's. We are glad to have this 7" back in print again!

## Marketing Points:

The Swedish gods of crust unleash a masterpiece of epic proportions. Twelve brutal songs that layer new realms of guttural intensity to the traditional Swedish d-beat **KÄNG** of the likes of **TÖTALITAR**, **KRIGSHOT**, **WOLFBRIGADE**, etc. And of course there is plenty of the traditional **WARCOLLAPSE** sound that emphasizes mournful dirges, captivating guitar leads, and vocal style that is as primal as it is guttural. # IMPERIAL LEATHER

DO YOU KNOW WHERE YOUR CHILDREN ARE?, LP

**STREET DATE:  
AVAILABLE NOW!**

## INFORMATION:

Artist Hometown: **Sweden**

Key Markets: **USA/EUROPE**

For Fans of: **THE WIPERS, AGENT ORANGE, THE AVENGERS**

The second full-length album from Stockholm's **IMPERIAL LEATHER**. But perhaps you have been living under a rock and do not yet know the joys of **IMPERIAL LEATHER**. This Swedish punk rock "super group" has been going for a half dozen years now and is made up of members whose numerous other projects count among legends, including **MEANWHILE, NO SECURITY, DS-13, BRUCE BANNER, ABDUCTEE S.D., SPIDER CUNTS**, etc. This album sees a shift to a much more raw and primal sound, losing much of the poppy innocence of their previous releases. Whether you are a long-time fan or new to **IMPERIAL LEATHER**, this album is sure to be a new favorite: defiant female vocals over raw punk rock n' roll with a hint of classic American hardcore circa early 1980s **AGENT ORANGE** and **WIPERS**. They have toured Europe and the States on several occasions and this album will be their third appearance on Profane Existence Records. High-energy hardcore punk from start to finish that will leave you begging for more.

#### INFORMATION:

Artist Hometown: Los Angeles, CA

Key Markets: USA/EUROPE

For Fans of: NAPALM DEATH, TERRORIZER, WOLFBRIGADE

“**RESISTANT CULTURE** has claims to fame in guitarist Jesse Pintado (RIP), who, post-**NAPALM DEATH**, was working with the band before his untimely passing, and vocalist Anthony Rezhawk (aka “Tony Militia”), who did the last **TERRORIZER** album alongside Pintado. However, this band more than stands on its own. This LP kills. It’s crusty grindcore with tribal influences - but the latter are truly tribal, working in Native American drums, chants, and flutes. The riffs are crushing, the recording is crisp, and blastbeats strafe the mix powerfully and precisely. 16 songs, 31 minutes, none less than fierce. Rezhawk’s vocals are strong and amazingly understandable: “Clear cut the heart / Strip mine the soul / Nature for profit / It’s all out of control.” These are sentiments I can definitely get with. The lyrics come in a simple, legible font, and the liner notes fold out to a bad-ass poster. I don’t say this often - this CD truly touches my soul.”

### INFORMATION:

**Artist Hometown:** Portland, OR

**Key Markets:** USA/EUROPE

**For Fans of:** OI POLLOI, DEFIANCE, DOOM

**RESIST** were first among the wave of new anarcho-punk bands that swept over Portland, Oregon in the late 80's. During their brief existence they became a fixture of the local DIY / anarcho-punk movement and released several records before personal problems tore the band apart in 1994. During their brief time together **RESIST** released their self-titled debut EP, The Only Solution... LP, a pair of split EPs with **DISRUPT** and **DEPRIVED**, and finally the Ignorance is Bliss LP on Profane Existence Records. During their time **RESIST** were considered one of the foremost activist bands of North America, even though they rarely played outside their hometown. After the band split up, members of Resist went on to form other bands such as **GODLESS, DEFIANCE, SEVERED HEAD OF STATE**, etc. In late 2007 three of the four original members (Kelly Halliburton, Tom Nims, and Ward Young) reunited for a 20th anniversary show in Portland, Oregon. Considered a success by a more mature and sober line-up, Tom and Ward have decided to keep the band going and will be playing more shows up and down the West Coast this spring and summer. This discography CD includes studio versions of all previously released **RESIST** tracks plus outtakes and live tracks. The recordings contained herein are completely re-mastered from the original recordings are sound the way they were originally intended to be. Aside from an extensive booklet of lyrics, photos, and flyers, there are also several video clips contained on each CD. A classic piece of North American anarcho-punk history finally given the attention it deserved.

"Unjust & unwanted wars, poverty, prisons for profit and now cyberspace censorship...unholy fuck, there is some crazy shit happening right now, and luckily some bands are willing to take a stand against it! **APPALACHIAN TERROR UNIT** is a West Virginia anarcho punk band who create music that gives a voice to the down-pressed humans worldwide. **ATU's** newest release Black Sands will not disappoint - four songs that clock in over 13 minutes, packed with awesome metallic riffs and lyrics that bring home issues we all should have on our minds. What's so on point about this band is that they are the total fucking package; not only do they incite change on the lyrical tip, but the music they lay down is so epic. **ATU** are able to balance all of the influences of metal, crust and punk with pure passion and conviction, which makes their songs dig deeper into your mind...."

For Fans of: MUNICIPAL WASTE, DRI,  
STORM TROOPERS OF DEATH & TACOS

This is the third full-length album by Minneapolis based taco thrashers, **IN DEFENCE**. It contains fourteen tracks of spastic Ritalin-fueled thrash metal/punk crossover with caustically sarcastic lyrics, super crushing guitar riffs and relentless machine gun-like percussion. **IN DEFENCE** are definitely hometown favorites (usually drawing bigger crowds than the touring bands they support), have a relentless tour schedule, and are comfortable playing with bands from across the hardcore / punk & metal spectrum. They have shared the stage with bands like **MUNICIPAL WASTE, DRI, TOXIC HOLOCAUST, GORILLA BISCUITS, BOUNCING SOULS, MURPHY'S LAW, THE CASUALTIES, DILLINGER FOUR, AGNOSTIC FRONT, MDC, LEFTOVER CRACK, SKELETON WITCH** as well as countless underground bands that most people have never heard of. This album contains the video hit single "Black Metal Mania" (as seen on Youtube).

Welcome To Minneapolis features six local crust, punk & thrash bands that are actively playing and setting up shows in basements and underground venues around town. Some of the bands are politically active... some of them will drink you under the table... others are content to sit at home with a glass of vegan almond milk and play with Legos all night. Despite their differences each band contributes to the life of the scene and are proud to call Minneapolis (& St. Paul) their home. The cover turns into a fold-out poster featuring a collage of pictures by photographer Adam Degross.

### INFORMATION:

**Artist Hometown:** Connecticut & North Carolina

**Key Markets:** USA / Europe

**For Fans of:** NAUSEA, DOOM, EXTREME NOISE TERROR

Worshipping upon the filth-streaked altars of Scandinavian hardcore, Japanese punk, classic d-beat, and vicious, metallic-minded crust, these two bands have risen rapidly through the underground, and are poised to take the fuck over. Tour after tour, song after song both **OILTANKER** and **NO TOMORROW** are relentless and have shown through their actions that they won't let up until the world hears their message of defiance and unrest. When looking for new artists to join the Profane Existence family we want bands that exemplify our mission statement. These bands are definitely out there "Making Punk A Threat Again!" While each band has their own unique style, it's easy to see why they are sharing a release together: Their sound is heavy. Their delivery is crushing. The recording embodies the high-energy performance and intensity you would expect from a live show while sounding solid and musically tight. This is definitely a record that will breathe new life and energy into the crust punk generation. When they contacted us about releasing the record there was no way we could pass it up-- this is one of the best new records we have heard in a while! With both bands poised to launch live assaults upon the continental US and even further, the release of their split LP is only a merciless harbinger of the destruction that is to come. There will be blood.
