First wave Los Angeles punk rock royalty **THE GERMS** need no introduction to anyone who should care. Their star shone extremely strong for an incredibly short time before their demise. A star that still shines in the aftermath of their end. **THE GERMS** are still influential to those who came after and ran with the punk rock baton.

Lexicon Devil was **THE GERMS** second single and the first ever release for the legendary Slash label.

This reissue is replicating the original 1978 version. This edition will be made available in the same four sleeve color variations as the original with matching colored vinyl (in red, pink, yellow and orange with each color being limited to 500 for a grand total of 2000 copies). On this reissue the lyrics will be printed on the inner sleeve as opposed to other side of the sleeve like on the original.

Don't miss out on this opportunity to own a piece of first wave punk rock history. Head down to your local store on RSD before **THE GERMS** *Lexicon Devil* is gone once again!

MARKETING POINTS:

- Is on the official RSD 'list'
- First time available since original 1978 release.
- 2000 copies on colored vinyl with inner sleeve.
