For Fans of: **HOW DARE YOU, SAVES THE DAY, THE GET UP KIDS**

Erupting like a sonic Cthulhu from beneath the Florida swamps comes **TEEN AGERS**, the brainchild of four gentlemen, current and former members of **HOW DARE YOU, GO RYDELL, PROTAGONIST**, and **DIRECT EFFECT**. With plenty of melody to satisfy the crowd at your rad wine mixers and hearty helpings of riffage guaranteed to satiate your unresolved adolescent angst, **TEEN AGERS** are the result of an unstoppable force meeting an immovable object; just a bit slower, so as to not pull something. A product of blood, sweat, and icy-hot, **TEEN AGERS'** initial offering *I Hate It* was recorded at The Moathouse in Gainesville by Roger Lima (**LESS THAN JAKE**) and mixed/mastered by Stephen Egerton.

INFORMATION:

Artist Hometown: Brooklyn, NY

Key Markets: Northeast US, Gainesville FL, Colorado

For Fans of: **SUPERCHUNK, RVIVR, AGAINST ME!**

When you're friends with some chick who you hang out with or whatever, who then starts dating some other chump and never talks to you ever again. This leaves you sitting there on a cold leather couch in your underwear playing wii, bowling, drinking stale MGD, and wondering where the hell your friends are. Dude...you got chumped.

CHUMPED is a female-fronted indie-punk band comprised of four friends from Brooklyn, NY who like to drink and write songs about feelings. Drawing influence from the power pop structure and slacker sensibility of **SUPERCHUNK**, the poetic substance of **JAWBREAKER**, along with the urgency and energy of **RVIVR**, they write songs that are emotive, powerful and catchy as hell. **CHUMPED's Self-Titled EP** is the culmination of formative heartbreaks, quarter-life crises, and an acute penchant for being young and dumb. They really look forward to playing a show near you sometime maybe, they guess.

Marketing Points:

- Cheek pinchingly cute
- Backed by Jadedpunk.com
- Playing many high-profile northeast shows

CROSSED OUT, NO COMMENT, NEUROSIS, MANPIG

HUMMINGBIRD OF DEATH have released many a split 7-inch since its inception in 2005. The band's earlier material largely takes after its name: short and high-strung. In fact, the songs are so short and fast that **HOD** packs in the same amount of songs onto a 7-inch that some bands barely fit on a double-LP. That said, there isn't much that largely distinguishes **HOD's** particular brand of loud, fast screaming and snarling from other bands that have "of Death" tacked onto their names.

HOD have never been a band that just sticks within the comfort zones of the genre, opting instead to experiment and push it into territories that most don't dare to go, and they actually pull it off with great results. These songs are fast and furious the whole way through, but not spazzy and schizophrenic. It's like the usually A.D.D. freaks took some chill pills and said to each other—"Hey guys, let's actually play some of these riffs for more than two measures" while also showing some black-metal-sounding chord progressions, some death metal vocals thrown in at one point, and some thrashy crossover riffs.

Austria's **COLD WORLD** bring an abrasive hardcore/thrash/powerviolence attack to this release with plenty of speed and fury, taking influence from bands like **SIEGE, NEANDERTHAL, CROSSED OUT** and **INFEST**.

Marketing Points:

1. It's **COLD WORLD's** 25th anniversary!
2. **HOD's** third release on Deep Six Records
3. **COLD WORLD's** first release on Deep Six Records

For Fans of: UNHOLY GRAVE, PHOBIA, ASSUCK

FLAGITIOUS IDIOSYNCRASY IN THE DILAPIDATION is a band made up of four incredibly talented Japanese women from Tokyo, Japan playing an epileptic convulsion of old school raw grindcore, infested with traditional Japanese hardcore and punk. Taking cues from countrymen **UNHOLY GRAVE**, the gals musically erupt in total fury, combining an insanely vicious grindcore rawness with the energetic, unhinged hardcore/punk their homeland has been known for. This record starts pissed off, picks up an unrelenting intensity as it proceeds and ends in a massive cauldron of seething anger and disgust before finishing you off with the rip roaring punk ripper "Let's Go!", leaving a smile on the face of any fan of grindcore and punk. **F.I.D.**, as they are commonly referred to, have played all the major grindcore/punk fests worldwide (Maryland Deathfest, Obscene Extreme [Czech Rep and Indonesia], Short Fast & Loud Fest) and have culled a worldwide following of extreme "musick" maniacs who have been waiting patiently for five years for this band to release a new album, especially after the great response to their debut LP on Six Weeks Records. Here it is, ready to be devoured!!

Marketing Points:

- Limited edition of 500 LP/500 CD
- Full carpet bombing PR campaign led by Earsplit PR
- Special one-off California gigs scheduled to celebrate SIX WEEKS Records' 20th Anniversary
