INFORMATION:

Artist Hometown: Milwaukee, WI

Key Markets: Milwaukee , London , Reykjavik , Toyko , San Francisco

For Fans of: **HAWKWIND , F/I , BOY DIRT CAR , DANGLERS , COIL**

Probably one of the few releases that is available on both 12" vinyl, CDR and stereo 7.5 IPS reel to reel; the only thing missing is a release on 8-track. Here we have a new trio, of Darren Brown (of **BOY DIRT CAR** fame, and also the proprietor of After Music) with John Sparrow and David Gelting (both of **THE DANGLERS**). The press release also notes one Zwarte Piet (search for St. Nicolaas on wikipedia if you wish to know more about the history of Zwarte Piet - any body in the Dutch language knows who he is). Three pieces here, totalling just under twenty minutes, of improvised music for rock band line up, it seems. Drums, guitars, electronics, bass, and no vocals. It's probably not far away from the same sonic world inhabited by **BOY DIRT CAR**, but despite some of the electronic bleeps in the opening piece "Dimma Himinn", it seems all strangely more acoustic in approach, with a strong emphasis on percussion sounds, in which we consider the piano to be a percussive instrument too. Slow music in tempo and in development, especially in the long "Kuldi Sjur". Oppressive stuff that transports the listener on a journey well beyond the horizon on a vast psychedelic trip into the underworld. The sun sets, the night arrives and the oddly named **KRAMPUSØ** provides the perfect nightmare scenario for that journey. Heavy-weight slow rock improvisation.

MARKETING POINTS:

- **KRAMPUSØ** has members of **DANGLERS** and **BOY DIRT CAR**
- **KRAMPUSØ** had its live debut at Milwaukee Noise Festival 2013
- **VOCOKESH** has members of space rock masters **F/I**

Artist Hometown: Australia

Key Markets: Worldwide Metal Community

For Fans of: **METALLICA, MEGADETH, MORTAL SIN, SODOM, KREATOR & TESTAMENT**

Few bands survived the rapid decline of thrash metal in the early 90's, but not only did Australia's **ADDICTIVE** soldier on, they released a superb slab of classic speed metal against all odds. Following up their raw, yet impressive 1989 debut album, *Pity Of Man*, the band enlisted **OZZY OSBOURNE/RAINBOW** bassist, Bob Daisley, to produce what would become their finest moment. Rumors originally claim misplaced master tapes are the culprit behind the delayed *Kick 'Em Hard* 1993 release. No matter the cause **ADDICTIVE** tried to overcome those delays and had unquestionably upped the ante with *Kick 'Em Hard*, revealing a band whose ravenous desire to succeed overshadowed the industry's climate predicting disaster for themselves and their thrash metal brethren. Combining all the best elements of early **METALLICA**, **KREATOR** and **MEGADETH**, **ADDICTIVE** were a band surely on the rise delivering a crushing sophomore album, but the shifting tides of the music industry unfortunately left them drifting aimlessly by the mid-90s.

These two classic albums have been out of print for nearly 20 years and fetching high dollar collector prices online, but **ADDICTIVE** has remained a cult favorite with die-hard thrash fans. *Kick 'Em Hard (Rebooted Edition)* contains brand new mastering of the band's entire discography, interview and a redesigned, full color booklet with archival photos of the band's history. For the fans, by the fans.

MARKETING POINTS:

- Full band discography
- Archival photos/Show flyers (20 page booklet)
- Brand new interview with band
- *Kick 'Em Hard* produced by Bob Daisley (**OZZY OSBOURNE**)

For Fans of: **HELLOWEEN, SCANNER, JAG PANZER, LEATHERWOLF**

During the 80's you could count the number of prominent Swiss metal bands on one hand, but that didn't mean there weren't a plethora of bands trying to fight for their shot at international stardom like **CELTIC FROST** and **CORONER** had already achieved. **SULTAN** were one those hardworking bands whose origins date back to 1986. Instead of simply recording a demo, SULTAN tried to differentiate themselves from the pack by self-releasing a vinyl single entitled "Rebel Fire." Despite the single's initial success, four years would pass as **SULTAN** were plagued by frequent line-up changes but were finally able to release their magnificent debut, *Check & Mate*, in 1990. **SULTAN** successfully fused both the past and present on *Check & Mate* by channeling **NWOBHM** influences, while harnessing the escalating momentum of the new established European power metal scene. Sadly, after one final tour in 1991 the band would call it quits leaving *Check & Mate* as their one and only album, but what an amazing album it was!

Check & Mate has been out of print for nearly 20 years and was originally fetching high dollar collector prices online until bootleg copies began to circulate within the European market. Divebomb Records and the members of **SULTAN** have partnered up to take on these illegal activities directly by issuing a band approved deluxe edition reissue. We hope that we can take the music back and support the artists that created it rather than support those simply repressing "knock off" copies for a quick buck. As always, we are fans doing this for the fans.

MARKETING POINTS:

- Two bonus tracks from first 45rpm single (1986)
- Archival band photos (8 page booklet)
- Brand new interview with drummer/founding member - Fabian Ranzoni
- Out of print nearly 20 years

For Fans of: **FLOTSAM & JETSAM, REALM, METALLICA, SACRED REICH, MORDRED**

During the height of the worldwide thrash movement there were several epicenters of activity. While New York and the Bay Area were perhaps the most prominent, Germany's big three; **SODOM, KREATOR** and **DESTRUCTION** were leading the charge on the European front. However, what some thrash fans may not be aware of is that there was a secondary stratum to that scene which had some phenomenal, albeit lesser known, acts recording some ambitious material. **GRINDER** were one of those bands who released three albums worth of "in your face" thrash/speed metal during their brief existence. Divebomb Records is excited to present a deluxe edition of what we believe to be their most impressive album, *Dead End*, which features not only nine bonus tracks but new interview and archival photos provided by the band members themselves.

Dead End has been out of print for nearly 20 years and was originally fetching high dollar collector prices online until bootleg copies began to circulate within the European market. Divebomb Records and the members of **GRINDER** have partnered up to take on these illegal activities directly by issuing a band approved deluxe edition reissue. With a vision of creating a musical outfit, **HAVENSIDE** founder and vocalist Brandon Wells began the process of recruiting a group of musicians who shared the same desire of performing in a gritty hardcore metal act. In April of 2006, **HAVENSIDE** was born and began cutting its teeth with a full lineup intact, putting out a few demo E.P's and playing lots of local & regional shows throughout the first two years of existence. After their first full-length album, *Lost & Departed* self-released in February of 2009, the band experienced drastic changes. Having added a new drummer, guitarist & bassist, they came together as a powerful band that had transformed their sound into something remarkably powerful and solid. The album began to see a lot of hype and put **HAVENSIDE** on the map in the metal/hardcore scene, touring the album with **DESERTERS & DOMINATION** and some solo runs.

Seven years gone by, the band remains intact with a few member changes. With three records already under their belts, the band signed with Innerstrength Records and will tour heavily around *Living Our Darkest Days* in 2014. Clearly, **HAVENSIDE** has laid significant groundwork over the past few years, and is a dedicated force in the current music scene.

For Fans of: **DEATH, MC5, IGGY POP, THE STOOGES**

The story of **ROUGH FRANCIS** starts in Detroit, Michigan in the early 70's. Three African American brothers—Dannis, David, and Bobby Hackney play in a funk band called **ROCK FIRE FUNK EXPRESS**. The brothers quickly abandon funk and switch to rock and roll after seeing **ALICE COOPER** at the Cobo Arena. The newly inspired Hackney brothers start playing quick-tempo, high-velocity rock and name themselves **DEATH**. Heavily influenced by **THE MC5, THE STOOGES** and **THE WHO**, **DEATH** unknowingly channel the true essence and attitude of punk... before punk was punk. Fellow Detroit native Jack White sums it up best, "Ahead of punk, ahead of their time." The band goes into obscurity until...

30 years later, the sons of Bobby Sr; Julian, Urian, and Bobby Hackney Jr., discover the original **DEATH** recordings in their parent's attic. Already well steeped in the hardcore and punk scene, the young Hackneys are blown away by the raw power of their father and uncle's music. The three sons along with friends Steve, Paul and Dylan create a tribute band to **DEATH** called **ROUGH FRANCIS**.

ROUGH FRANCIS started out covering songs from **DEATH**'s unearthed album "For the Whole World to See". After a few shows, they began to write their own music. Although the loud screams, wild stage antics and maximum volume of **ROUGH FRANCIS** echoes **DEATH**, they have also crystalized a unique sound of their own. Fueled by 70's proto-punk, Motown, the British Invasion and 80's hardcore, **ROUGH FRANCIS** continue to prove an overwhelmingly powerful force onstage.

ROUGH FRANCIS has been featured in the New York Times, Spin.com and Brooklyn Vegan. They have also shared stages with **MOS DEF, OFF!, AGENT ORANGE, DEATH, THE JON SPENCER BLUES EXPLOSION, FISHBONE, THE DICTATORS** and many others.
