Beer City Skateboards and Records is proud to present a special limited edition record store day vinyl version of **D.R.I. - Live at CBGB's 1984**. This is the first time this recording has been on vinyl and it was fully restored and remastered by Dave Eck of Lucky Lacquers. To top it all off its limited to 2000 copies on white vinyl.

Remember when HC was just that? When it was HC, and not some watered down, consumer led fad forced into mainstream acceptance via corporate policy and greed? You do? So do **D.R.I.**, and as such they (along with Beer City) have unleashed *Live at CBGB's 1984*, recorded on their infamous 1984 US tour, at the home of hardcore, which helped to establish the legend of the **DIRTY ROTTEN IMBECILES!** 40 songs in under 39 minutes! This is how HC should be. Loud, proud, aggressive and raw. Nothing else matters. Close your eyes, suit up and get ready to slam. Who would have thought a history lesson could be this much fun? The past never sounded so good!

FLAG OF DEMOCRACY (FOD) formed in 1982, and has been thrashing ever since. They have toured the US and Europe many times over, released seven full-length records, a live record, a handful of EPs and about a million comp tracks.

FOD recorded *Down With People* in 1990. The original mix left much to be desired, so we dug up the master tapes, baked them, transferred them, and remixed the whole thing using the original as a guide, but making improvements wherever possible. The record has been remixed and remastered from the ground up for a much better listening experience. To make this new version stand out from the old version we have new cover artwork by JP Flexner (Beach Slang/Ex Friends). The CD is an HDCD, compatible with all CD players, but when played in an HDCD compatible player or Windows Media Player it will play at 20bits giving greater dynamics and headroom. Included on the CD is the 1993 live album Schneller.

MARKETING POINTS:

- 400 yellow vinyl LPs for RSD 2015
- 500 CDs for RSD, CD contains the live record Schneller as bonus tracks
- The vinyl color is exclusive to RSD 2015 as are the bonus tracks on the CD
- Remixed from original multi-track tapes, remastered 1990 LP
- New artwork based on the original cover
- Download code included in LP
- CD is an HDCD for 20bit playback in compatible players

FLAG OF DEMOCRACY (FOD) formed in 1982, and has been thrashing ever since. They have toured the US and Europe many times over, released seven full-length records, a live record, a handful of EPs and about a million comp tracks.

Pennsylvania thrashcore legends **FLAG OF DEMOCRACY** made the perfect punk rock record in 1994 and practically no one noticed. From the opening tape noise freakout of "King Size Twisted" to the slipped-disc insanity cover of **THE GO-GOS'** "Head Over Heels" to the final haunting seconds of "Cathode Ray Mission," the provocatively named *Hate Rock* (a very open middle finger to the still scary Mid-Atlantic White Power scene of the 1990s by the way) still sounds like an experiment in disciplined rule-breaking gone very, very right. Masterfully engineered by the great Art DiFuria (Photon Band) *Hate Rock* is finally coming out on vinyl -gloriously remastered orange vinyl- a mere two decades after its original release. If you slept on *Hate Rock* the first time around. Don't blow it again.

MARKETING POINTS:

FLAG OF DEMOCRACY (FOD) formed in 1982, and has been thrashing ever since. They have toured the US and Europe many times over, released seven full-length records, a live record, a handful of EPs and about a million comp tracks.

How unlucky is **FLAG OF DEMOCRACY**, the seminal Pennsylvania thrashcore trio that has released eight full-lengths over their three-decade career? So unlucky that despite having literally invented melodic hardcore on their debut LP *Shatter Your Day* in 1982, they have functioned in almost total obscurity ever since. So unlucky that they released what should have been their revolutionary breakout album in 1996, titled *Everything Sucks*, exactly a month before **THE DESCENDENTS** released a massively hyped reunion record with the same title. Seriously, you can't make this stuff up. While their may not be a mountain of weed and vintage Japanese superhero toys high enough to make up for **F.O.D.**'s legendary bad luck, today is your lucky day my friend, because SRA Records is about to release *Everything Sucks* on vinyl for the first time ever. Hear what should have been legendary pop-punk hits like "Punk Gun" and "Skins 'N' Hooves" for the first time in remastered magenta wax glory. Of course all of this should have happened almost 20 years ago but hey, that's what **F.O.D.** has been trying to tell you: Everything Sucks!

MARKETING POINTS:

- First time on vinyl
- 400 magenta LPs only for RSD 2015
- 1996 full-length, remastered by James Plotkin
- Download code included in LP
- Available on CD with SRA032 *Hate Rock*
