Organ Voodoo is the exotic, hypnotic, erotic, and rhapsodic ninth album by the **VOODOO ORGANIST** in which Scott Wexton leaves behind the rough-edged blues and vaudevillian industrial of previous releases and sails into the seductive Space Age sounds of exotica.

Wexton began performing as the **VOODOO ORGANIST** in 2001, released his first VO album that same year, and booked his first tour in 2002. Since then, and as of the pressing of this album, he has played over 800 shows nationwide and received over 250 press articles.

VO's sound is difficult to describe yet instantly recognizable, weaving together elements of blues, rock, punk, goth, industrial, and even Latin music. He self-describes his sound as "a one-man band in Satan's Tiki Lounge." With **VOODOO ORGANIST** he's gone full-on Tiki; the album is influenced by his love of Exotica, Lounge, and Space Age Pop music and was inspired by artists such as Sir Julian, Enoch Light, and Martin Denny (who he shares a birthday with). Highlights of the album include "Mojave Midnight Moonlight," which evokes the surreal Joshua Trees and hoodoo rock formations that dot the landscape of his high desert home; the toe-tapping, surf-inspired "Bombay Beach Bondage Boogaloo"; "It's Smokey," a red-hot blues jam that would ignite any lounge; "Violent Pillage," a subversive, digital-age tribute to the Martin Denny Lounge classic "Quiet Village"; and "Detroit It," an urban tribal drum jam perfect for restless natives. So kick back, grab a cocktail, and enjoy... Zombies won't be chasing you in this recording—but you may find yourself drinking Zombies in some far-away island cantina!

MARKETING POINTS:

- Organ Voodoo is the ninth album by **VOODOO ORGANIST**
- The soundtrack to your next Zombie cocktail party
- A unique take on Exotica

For Fans of: **GRAM RABBIT, PEACHES, THE ASTEROIDS GALAXY TOUR**

Journey Mitchell is the debut solo album by lead singer, keyboardist, and songwriter of **GRAM RABBIT**, **JESIKA von RABBIT**. The album reflects a shift in energy for **von RABBIT** now that **GRAM RABBIT** are on a sabbatical of undetermined length. For her new project that was entirely written and recorded on her own, **von RABBIT** is extending the electronic element of **GRAM RABBIT** with "Adult Theme-Park Pop".

The album includes the track "Psychic Spice" which is the subject of must-watch video directed by Jessica Janos featuring a cornucopia of outrageous imagery starring a warehouse of weirdos which **von RABBIT** refers to as her "prairie gangsters." A video for the song "Glamorous Misery" is in the works.

"**JESIKA von RABBIT** is perhaps California's penultimate post-modern inter-galactic pop provocateur. First thrust upon this unsuspecting world as co-founder of groundbreaking freakno rock oddballs **GRAM RABBIT**, the buxotic blonde vixen became such an inescapable force in her Joshua Tree-adjacent headquarters that she even has her own menu item (Nachos von Rabbit) available at cosmic desert honky tonk Pappy & Harriet's. Now operating as her own free agent, the **von RABBIT** solo assault comes in the form a characteristically sizzling celestial psych-disco sound –while the kinetic stage presentation is one significantly enhanced by a writhing trio of terpsichoreans. Put over with equal measures of artful expression and droll entertainment, after you flip, trip and slip down this rabbit hole, you'll never want to come back." – LA Weekly

MARKETING POINTS:

- *Journey Mitchell* is the debut solo album by lead singer, keyboardist, and songwriter of **GRAM RABBIT**, **JESIKA von RABBIT**
- The soundtrack to your next naked dance party
- **JESIKA von RABBIT** turns **THE DICKIES** track "You Drive Me Ape" into a sultry electro-lounge classic and her moody version of **CINDY LAUPER**'s "She Bop" will make you cry
- First pressing of 500 on clear vinyl
- A gorgeous and grotesque video of "Psychic Spice" is on YouTube with thousands of views – the track "Glamorous Misery" will have a video by the time the album hits the streets

Rock n' roll can save your soul! Said many times throughout the ages, but in the case of Mark Linskey, it has never been more true. Linskey has piloted his band **HUDSON FALCONS** through 15+ years of revolving band members, five full-length albums, numerous splits and comps., seedy bars in different continents, heartbreak, and redemption, and has come out on the other side. Maybe a bit weary, but with a strong sense of family and the same punk rock ethos which have allowed him to come this far, Linskey and the **HUDSON FALCONS** release their 6th album, *Peace of Mind*.

Those who have followed the band have seen a progression from the hard-charging street punk of "Desperation and Revolution" to the more melodic "Dancing Underneath The Moonlight." *Peace of Mind* follows this progression, and though the tempo may have changed, the message remains the same. This is music for the desperate masses of the working class, and the underdogs in today's society. Like a lonely light in the Ohio rest area where Linksey wrote most of the lyrics of this album, it offers a small bit of hope in a world becoming darker. It is a culmination of years of hardships and trials, hopelessness and loss, and yet maintains a sense that there is a better time on the horizon and that the altruistic vision that every person should be happy and free still burns in us all. Rock n' roll can definitely save souls, and *Peace of Mind* is the redeemer.

MARKETING POINTS:

- At least two US tours scheduled in 2015
- European tour Summer 2015
- First new material in four years

Antium, the ancient town of the Roman Empire, known for its piracy and upheaval, taken violently by the Romans, lost and regained, and turned into a place where many nobles made their home, made historic speeches in the great forum, and became the birthplace of the emperor Nero. This is also the name of the debut full-length from Lansing, Michigan's **THE DEVIL'S CUT**. Not unlike the town of *Antium*, Lansing has been a city of industry, the capital of Michigan, rife with dubious politics and a place of upheaval and violence.

This is where **THE DEVIL'S CUT** cut its teeth on rock n' roll. In the shadow of abandoned factories, they bring about a sound to which beggars and kings alike can nod their heads, with whiskey in their hands and the truth in their hearts. Punk rock, Americana punk, punk with a country twinge, or just straight up rock n' roll. Whatever you want to call it, it lies within **THE DEVIL'S CUT** and is brought raging to the front with every chord.

Says drummer Vaive, "...when those of us who do dwell on the bottom rungs of the social dynamic - sometimes by force, sometimes by choice - come together, beautiful things are created, struggles purged, and life is again given meaning. That's what our home has done for us."

MARKETING POINTS:

- Playing 200+ shows in 2015
- Debut full-length LP
- Backed by nationwide college radio campaign

The UK's **HELLBASTARD** have certainly paid their dues over the years - ex Earache Records and proficient in crazy worldwide touring schedules - here we have the soundtrack to the new apocalypse.

Featuring guest slots by the legendary (much praised & sought after) recording Maestro Andy Sneap (ex-**SABBAT/HELL**) and old timers Rob Miller & A-Droid (**AMEBIX**) **HELLBASTARD** seem to have 'come of age' with the tech available to them. *Feral* has a monolithic sound and layered production that only betters 2013's *Sons Of Bitches* EP & 2009's full length *The Need To Kill*.....

Having come from the 'anarchist-punk' scene of the early 80's **HELLBASTARD** plough forward with all the guts and artillery of a well tuned tank, but the musicianship and subtleties of their more 'peaceful' craft shine a much brighter light on the tracks that burst with intelligence & raw emotion.

Feral has everything from all-out chunking metallic stomping and an academic lyrical lean towards misanthropy and the state of humanity as we currently know it.

HELLBASTARD return with big guns on *Feral* - maybe now it's time to leave the "DIY- CRUST" ethic and show the masses what a seasoned band can do on the big stages.

MARKETING POINTS:

- **HELLBASTARD** produced promotional videos for both the "Making Of *Feral*" as well as a music video for the track "We Are Coven"
- Featuring appearances by members of **AMEBIX**, **HELL** and **SABBAT**
