### INFORMATION:

**Artist Hometown:** Norway

**Key Markets:** North America, Japan, Europe

**For Fans of:** IRON MAIDEN, DIO, FIFTH ANGEL, SAXON, METAL CHURCH

History books have heralded Norway as the black metal movement's most fertile breeding ground, but the country's heavy metal scene isn't exclusively about corpse paint and Helvete. One of the finest and most underrated groups to come out of the land of 10,000 lakes is undoubtedly **ARTCH**. Formed in 1983, the power metal outfit released two demos before hooking up with Eric Hawk, a killer vocalist from Iceland.

With Hawk on board, **ARTCH** would eventually sign with Metal Blade Records and release *Another Return to Church Hill*, their debut full-length. Arriving in stores in 1988, the album garnered rave reviews from the heavy metal media of the day. *Kerrang!* blessed the record with a perfect 5-K rating, while *Metal Forces* deemed it an instant classic, giving it 100 points, the magazine's top score.

Their lack of mainstream attention never got in the way of **ARTCH's** popularity within the underground metal scene in the following decades. A longtime fan of the band, Divebomb Records founder Matthew Rudzinski secured the rights to the **ARTCH** albums and is bringing you updated reissues of both. Featuring new liner notes, rare photos, and bonus tracks (on *For The Sake of Mankind*), these discs will surely sell out of their limited edition runs.

### MARKETING POINTS:

- Officially licensed from Metal Blade Records
- Limited edition
- Out of print on CD in North America since early 90's

One of the finest and most underrated groups to come out of the land of 10,000 lakes is undoubtedly **ARTCH**. With Hawk on board, **ARTCH** would eventually sign with Metal Blade Records and release *Another Return to Church Hill*, their debut full-length. 1991 saw **ARTCH** unleash their sophomore album, *For the Sake of Mankind*. The record was packed with anthemic tracks such as "When Angels Cry" and "Titanic," and it also finds the band introducing more hard rock elements into their sound. As great as *For the Sake of Mankind* is, it failed to bring them commercial success, eventually leading to **ARTCH's** breakup in the early '90s.

#### INFORMATION:

**Artist Hometown:** Los Angeles, CA

**Key Markets:** Worldwide Metal Community

**For Fans of:** **BITCH, GIRLSCHOOL, BLACKLACE, HELLION, ROCK GODDESS, WARLOCK**

Betsy Weiss, aka **BETSY BITCH**, has been a mainstay in the hard rock and heavy metal scene since the early '80s. The Los Angeles-based vocalist's band, **BITCH**, was the first band to ever release a record on future indie label giant Metal Blade. Despite **BITCH's** success, Weiss agreed to change the name of the band to **BETSY** in 1988 to see if it could help them reach a wider audience.

Working with producer Chris Minto, the band released an eponymously titled album that same year. The resulting record features some of the most magnetic songs in Weiss' discography. Songs like "You Want It, You Got It" and "Flesh and Blood" are hook-filled affairs that any fan of Pat Benatar and melodic rock in general will absolutely eat up. The **BETSY** moniker might have only lasted for the one album, but the material certainly deserves a revisit.

Originally released by Metal Blade, *Betsy* has been out of print for years now. That's where Divebomb Records come into the picture. The label secured the rights to reissue the album and worked closely with **BETSY BITCH** on the expanded liner notes. Not only does the CD include a brand new interview with the singer, it also features photos from her personal archives. **BITCH** is still active decades later, performing with artists like Doro and Loudness, and playing festivals throughout the globe. If you love hard rock and AOR, the *Betsy* album deserves a space in your CD collection!

### INFORMATION:

**Artist Hometown:** Portland, OR

**Key Markets:** Worldwide Metal Community

**For Fans of:** RACER X, CACOPHONY, VICIOUS RUMORS, MALICE

Portland's **WILD DOGS** strategically decided to switch things up after two successful albums with popular indie metal label, Shrapnel Records. The first major change came with the recruitment of new vocalist, Michael Furlong, who brought an entirely new range and influence the band magnificently channeled into their compositions. Secondly, **WILD DOGS** collectively decided to supercharge its ferocious musical tactics for what would become their magnum opus, *Reign Of Terror*, which helped to define and influence US Power Metal for years to come.

Originally released in 1987, *Reign Of Terror* was supposed to set the scene afire with its potent mixture of power metal and blazing thrash metal, but the timing couldn't have been any worse. Their new label, Enigma Records, went belly up a few months after the album's release and that was that. However in the music industry climate in the early 90s was not promising for metal acts and **WILD DOGS** decided to throw in the towel.

Divebomb Records is excited to present *Reign Of Terror* in this special deluxe edition reissue. The 20 page booklet contains band supplied archival photos and features full lyrics with a brand new interview with Jeff Mark detailing the making of the album. This edition also contains 3 high quality pre-production demos including the never before released track, "Eat You Alive." This is a reissue for the fans, by the fans.

### INFORMATION:

**Artist Hometown:** Netherlands

**Key Markets:** Worldwide Metal Community

**For Fans of:** **WATCHTOWER, SIEGES EVEN, ARCANE, MEKONG DELTA, REALM**

As the European metal scene headed into the 90s, there was a noticeable shift towards death metal and in the Netherlands it was no different with acts like **GOREFEST**, **PESTILENCE** and **ASPHYX** all quickly gaining popularity across the continent. **OSIRIS** being a progressive thrash band not only in sound, but also spirit they chose a different route one with high pitched melodic vocals and complex, lengthy song arrangements.

With an average age of only 19 when recording their first demo, **OSIRIS** was able to grab the attention of the European press who applauded its efforts for successfully channelling bands like **WATCHTOWER**, **SIEGES EVEN** and **MEKONG DELTA**. A second demo, *Equivocal Quiescence*, was released in early 1991 leading to its deal with Shark Records. Later in 1991, **OSIRIS** released its one and only album, *Futurity And Human Depressions*, a progressive whirlwind consisting of seven songs and clocking in at nearly 55 minutes.

While never quite attaining the same level of popularity as their counterparts, **OSIRIS'** *Futurity And Human Depressions* remains a much beloved album by progressive thrash fans to this day. Divebomb Records is proud to present this new deluxe edition which features new mastering, both original demo tapes as well as a band interview.

### MARKETING POINTS:

Cornish punk/weirdos, **BANGERS** back with their third full length LP!

**For Fans of:** IRON CHIC, THE HOLD STEADY, LEATHERFACE, ARCHERS OF LOAF

In August 2014, Cornish punks **BANGERS** undertook a daring (stupid?) challenge to write and record an album in 48 hours. Originally intended as a limited tape-only release, we liked the results so much one year on here's a one sided 12" of the nine songs **BANGERS** pulled out of nowhere over a weekend last year.

Urgent, imperfect, charming, punk rock.

Yorkshire, England's **ABOVE THEM** is back with its third full length LP!

Lots has changed for the band since the release of *Are We A Danger to Ourselves* in 2012, line up changes have come and gone, fatherhood, marriage. What hasn't changed is the band's ability to write incredible, melodic punk rock songs!

Recorded early 2015 in South Devon with Paul Yeadon (of **BIVOUCAC & THE WIRELESS STORES**), *Water Lane* shows a natural progression from where they left off, bringing in subtle new influences and developing that well honed Above Them sound.

## INFORMATION:

**Artist Hometown:** Philadelphia, Brazil

**Key Markets:** Brazil, Philadelphia, Germany

**For Fans of:** DEAD KENNEDYS, NEGATIVE APPROACH, SPAZZ, HUSKER DU, FYP, DFL and ROMANTIC GORILLA

Entering its fourth decade as hardcore punk legends, Philadelphia's **FLAG OF DEMOCRACY** decided to mix it up a little, doling out its new tunes on a series of splits with like-minded bands from all over the world. This time around it's Brazil's long-running **MERDA**, a rugged trio whose barbed yet catchy delivery brings to mind **THE HARD-ONS** or **THE VANDALS** much more than the generic pop-punk that would come later. As if to send a clear message that nobody is fucking around, **F.O.D.** contributes four songs to its side. **MERDA** manages to squeeze off five (!) on its side, including the totally massive lead-off track "Giga Pudding" which, if there is any justice in the world, will become the "Wooly Bully" of the 21st century. Two bands, one 7", nine songs; this record is proof that when it comes to punk rock, you don't have to choose between fun and furious.

## INFORMATION:

**Artist Hometown:** Philadelphia

**Key Markets:** Philadelphia, Florida, Chicago, Germany

**For Fans of:** BEACH SLANG, PLOW UNITED, PUSHIN IT TO THE LIMIT, ADRENALIN OD

Rolling into their fourth decade as hardcore punk innovators, Philadelphia's **FLAG OF DEMOCRACY** have decided to mix things up a little, doling out their new songs over a series of split 7"s with like-minded bands. This time around it's their (now defunct) Philly neighbors, **EX FRIENDS** a five-piece band of basement lifers, featuring members of **BEACH SLANG**, **PLOW UNITED** and a lot of great Philly bands you probably haven't heard of but definitely should have. For their part, **F.O.D.** crush their way through three songs in under five minutes, each one a reminder that **F.O.D.** never got anywhere near the credit they deserve as pioneers of loud, fast music that was both melodic and aggressive. **EX FRIENDS** on the other hand churn out two of the witty, strange and very catchy punk anthems they were (un)known for during their three-year existence. As it turns out, these two songs were the last two the band ever recorded. It's fitting they ended up on a split with **F.O.D.**, a band that they collectively revered.

## INFORMATION:

**Artist Hometown:** Greensboro, NC

**Key Markets:** NC, NY, DC

**For Fans of:** STRIPMINES, NEGATIVE APPROACH, SSD, SIEGE

North Carolina- when you think of hardcore and punk you may think of **CORROSION of CONFORMITY** or even **DOUBLE NEGATIVE** but not much else. This state is amazing for music because scenes form in clusters and build up and then unfortunately implode... so when the scene expands it is a really special and ephemeral experience. Between To Live a Lie and Sorry State we were able to capture a good cross section of the hardcore takeover of Raleigh a few years ago between **ABUSE, LAST WORDS, THIEVES, DOUBLE NEGATIVE, CROSS LAWS, STRIPMINES**, etc. That bubble burst and there is some exciting stuff forming in the ash of it here (**SKEMATA, BLACKBALL**, and **NO LOVE**). Right now Greensboro has a thriving scene revolving around some younger blood, primarily the guys in **HOLDER'S SCAR**. Members of the band separately book almost every single DIY show in town. On top of that, HS puts on an amazing show and this record rips so fast it will make your head spin! Recorded at the world famous Legitimate Business by master audio technician Kris Hilbert (who also recorded the **TORCH RUNNER** LP and half the bands mentioned above), this record lays down some raging hardcore punk akin to a lot of the punk of yore in NC: **STRIPMINES, THIEVES**, and maybe throw in some of the new blood from Virginia like **BARGE** and **METH LAB**. Be on the lookout for **HOLDER'S SCAR** coming through your town as they aren't a band you want to miss out on!

## MARKETING POINTS:

- Black vinyl limited to 400 copies
- Hardest working local band in NC
- Recorded at Legitimate Business
- Headcrushing hardcore punk
