Formed in Heesch, Netherlands during the autumn of 1983 by five teenagers inspired by bands like **ANVIL**, **RAVEN**, **IRON MAIDEN**, **SAXON**, and **JUDAS PRIEST**, **MESSINA** got its start under the name of **ASSASSIN**. Six months later, the group made its live debut in the spring of 1984 and never looked back, releasing three demos in three consecutive years—*Mission Completed* (1986), *Cease Fire* (1987), and *Murder in the First Degree* (1988).

Due to confusion with the German band of the same name, and just prior to their first official appearance with two tracks on the *Metal in Rocks Vol. I* compilation in 1988, **ASSASSIN** settled upon the mysterious new name of **MESSINA**, after a town on the island of Sicily, Italy. The following year, they issued the Live! demo—showcasing the raw energy of their increasingly thrash-based attack, drawing inspiration from more aggressive acts such as **METALLICA**, **SEPULTURA**, and **SLAYER**.

Finally, the years of hard work practicing and playing gigs paid off, as **MESSINA** signed on with Inline Music for the release of their nine-song full-length album, *Terrortory* (1990). Unfortunately, their luck would soon change, as the label cancelled a German tour, and the band eventually lost its lead vocalist—the remaining members deciding to remain friends but go their separate ways before the end of 1993.

But now, more than 25 years later, the music lives on, as Divebomb Records is proud to announce this deluxe, two-CD set collecting **MESSINA's** entire discography—including all three **ASSASSIN** demos—fully remastered by Jamie King at The Basement Recording; and including an in-depth, band-penned biography and loads of archival photographs. For the fans, by the fans!

INFORMATION:

Artist Hometown: Salt Lake City, UT
Key Markets: Worldwide Metal Community

For Fans of: DANGEROUS TOYS, SPREAD EAGLE, CATS IN BOOTS, DIRTY LOOKS, KIX

Drawing from a wide range of influences that spanned from **LED ZEPPELIN** and **BAD COMPANY**, to early **AC/DC** and the **SCORPIONS**, and even further to **FATES WARNING** and **SAVATAGE**; Salt Lake City, Utah's **HARD KNOX** got its start when vocalist Therron Arrington and guitarist Chris Gigliotti began recording early tracks in-of all places—a closet in Chris' mother's house.

The quintet grew to achieve local notoriety—helped along by opening slots for acts like **David Lee Roth**, **GREAT WHITE**, **MR. BIG**, **SLAUGHTER**, and even **PANTERA** (among many others)—but after interest from Atlantic Records failed to result in a suitable recording contract, **HARD KNOX** decided to strike out on their own to self-release a full-length album, *Psyco's R Us*, in 1993.

The 10-song release carried a sound representative of the changing landscape of hard rock at the time—**SKID ROW** meets **MOTHER LOVE BONE**; or, as the band describes, equal parts Dirty Looks, Kix, and Alice in Chains. **HARD KNOX** promoted the album by plastering the town with full-size posters to support a continued onslaught of live gigs. However, the hard rockin', hard partyin' lifestyle eventually caught up with them, and the band self-destructed before they were able to capitalize on the momentum they had built.

Out of print for decades and now an increasingly rare collector's item (once cited in VH1's list of the "100 Rarest Hard Rock CDs"), original copies of the album have sold on eBay for astronomical prices of more than \$300. After years of trying, Divebomb Records is now thrilled to finally present this deluxe reissue of *Psyco's R Us*—including **HARD KNOX**'s original four-song demo (one track from which also appeared on KBER 101's *The Best of Rock From the Wasatch Front* compilation CD)—fully remastered by Jamie King at The Basement Recording; and including a brand new interview with vocalist, Therron Arrington, alongside archival photographs. For the fans, by the fans!

- Appeared on VH1's "100 Rarest Hard Rock CDs" list

Rising from the Midwestern hard rock scene of the mid-'80s, **BANSHEE** was a band that balanced traditional heavy metal with melodic hard rock with winning results. Featuring former members of such underground Kansas City groups as **GRANMAX** and **FRODO**, **BANSHEE** was fronted by Tommy Lee Flood, a vocalist that many have compared to Ronnie James Dio in his range and power. A few years after forming, **BANSHEE** self-released their *Cry in the Night* EP, selling so many copies independently that both Metal Blade and Atlantic Records courted the young act.

BANSHEE ended up signing on with A&R legend Jason Flom at Atlantic Records, but not before licensing the EP to Metal Blade, in turn bringing international attention to the group. 1989 found the quartet releasing their debut album, *Race Against Time*, an 11-song collection that focused on their more melodic tendencies. Despite MTV's Headbangers Ball giving the band's "Shoot Down the Night" video healthy airplay, behind-the-scenes drama lead to Banshee being dropped by Atlantic Records. The group would break up in 1993 after releasing their *Take 'Em By Storm* that year on their own Snowblind label.

Now, over 30 years since **BANSHEE** formed, Divebomb Records is excited to bring you the *Race Against Time + Cry In The Night* 2 CD set with each release pressed on its own CD. The remastered collection will feature archival **BANSHEE** photos from throughout their career. In addition, there's a new interview with guitarist Terry Dunn done by NoEcho.net's Carlos Ramirez especially for this reissue. With both titles long out of print, this is your chance to own two pieces of melodic hard rock gold all over again.

MARKETING POINTS:

- Out of print for over 20 years
- Archival photos
- Appearance at 2016's Rocklahoma Festival
