INFORMATION:

Artist Hometown: Pomona California

Key Markets: U.S.A Japan U.K.

For Fans of: **MAN IS THE BASTARD** is their only influence

For **MAN IS THE BASTARD**, the years of 1994/1995 were critical years in the bands development and output. Among many releases they documented : two from this time period stand out as prime examples of their cutting edge sound and philosophy : the **MAN IS THE BASTARD/PINK FLAMINGOS** split 7" e.p. (titled "UNDER THE SURFACE / SMASHED VISIONS") and the double 7" e.p. record set "ANGER AND ENGLISH" featuring **CAMPAIGN/FACTORY/MAN IS THE BASTARD/SCAPEGRACE**.

Now these two contributions by the band have been re-mastered, re-cut and re-pressed in all their glory onto a single 10" 45 rpm e.p. for heightened fidelity and "skull adventure"

With the original line of **BARNES/CONNELL/KENYON/WOOD** in their third year of existence, the band shared a 7" e.p. with Berlin, Germany's **PINK FLAMINGOS**. This record set the underground music world on fire as **M.I.T.B.** covered a ton of new ground in under 6 minutes time using every musical tool and drop of emotion they possessed to carve a critical juncture in their history. Crystal clear progressive/aggressive turmoil abounds with such tracks as "DOLL", "MEDIA PROPHET", "SLAY OR SLANDER" and the climactic finisher "SQUAW". A perfect mix of dual bass guitars, guitar, intense progressive drumming and desperate vocals make this session unforgettable and a staple "must have" for all "skull servants". "DE-PROGRAMMING THE BIGOT" (**M.I.T.B.**'s aptly titled session name for the "ANGER AND ENGLISH" release saw the absence of BARNES but the exciting new addition his disciple and electronics composer W.T. NELSON.

The band delves into the most heavy dual bass/drum attack of their existence to date with tracks such as "FLYING LIMBS", "TOMB RIDE" and "MR. WILSON" (Would you like a toke ?) taking the listener into "skull territory" uncharted until now... Absolutely pummeling low end and brute force drumming compliments the critical empire-hating dual vocals with NELSON's ethereal electronic signals and self invented "Irish spring" to create a batch of songs that are fresh, desperate and truly 100% **MAN IS THE BASTARD**.

MARKETING POINTS:

- **MAN IS THE BASTARD** has fans in the Power Violence , Jazz, Hardcore and the Exteme Metal Scene and developed noise with dual bass dual vocal dual bass
- Punk ideals and well played structured songs
- Songs like Squaw raised the bar for musicianship and song structure in the punk scene Seeing them play this song with the other 2 parts all at once was phenominal!

For Fans of: JUDAS PRIEST, SAXON, ACCEPT & NWOBHM

Widely recognized as one of (if not the) first Dutch heavy metal bands, **PICTURE's** storied career dates all the way back to 1979. Their classic first four albums have previously been subject to Divebomb's two-on-one CD treatment in 2013, and it's now time to see the group's fifth opus, *Traitor*, join the ranks.

Originally issued on LP and cassette in 1985, *Traitor* was **PICTURE's** second—and, at the time, final—album with English frontman Pete Lovell. This period signaled a shift towards a slightly more commercial hard rock direction, under pressure from a record label hoping to mirror the massive success of American acts such as **MÖTLEY CRÜE**. But make no mistake: *Traitor's* nine tracks remain packed with hard-hitting traditional metal riffs and absolutely anthemic choruses—a logical next step on the heels of 1983's *Eternal Dark*.

And now, over *three decades* after the fact, Divebomb Records is ecstatically pleased to announce its official reissue of **PICTURE's** *Traitor*—for the first time *ever* on CD! Freshly remastered by Jamie King at The Basement Recording, and includes archival photographs as well as a retrospective interview with Pete Lovell conducted by NoEcho.net co-editor Andrew Aversionline. For the fans, by the fans!

INFORMATION:

Artist Hometown: Netherlands

Key Markets: Worldwide Metal Community

For Fans of: EUROPE, SURVIVOR, BON JOVI & DEF LEPPARD

The history of Dutch rockers **EMERGENCY** dates back to 1985, when Jos Antonissen (bass) and Frans Limonard (guitar) approached Coen Van Hoof (keyboards) about forming a new band. By April of 1986, **EMERGENCY** was born, and with the help of former **PICTURE** manager Henk van Antwerpen, landed ex- **PICTURE** frontman Pete Lovell on vocals. The group firmed up its songwriting and quickly secured a recording contract to begin work on their debut album, *Martial Law*, with producer Erwin Musper (**ZINATRA**, **DEF LEPPARD**, etc.) at ML Studio and Wisseloord Studios in 1987.

Upon its release in 1989, *Martial Law* received press comparisons to acts like **BON JOVI** and **EUROPE**, but one could even cite similarities to what a band like **SURVIVOR** was doing around that time: good, solid hard rock with "pop" sensibilities; noticeable influences traced back to the '70s; an '80s-centric prominence of keyboards; as well as tinges of heavy metal. But despite its huge potential and some positive attention from Dutch radio, *Martial Law*'s two singles failed to make waves, writing for the follow-up stalled, and the members of **EMERGENCY** went their separate ways...

But now, nearly 30 years after its original street date, Divebomb Records is proud to unearth this overlooked hard rock treasure with a proper CD reissue of *Martial Law*. Newly remastered by Jamie King at The Basement Recording, the disc will come housed alongside lyrics, archival photographs, and a retrospective interview with **EMERGENCY** conducted by NoEcho.net co-editor Andrew Aversionline. For the fans, by the fans!
