Lexicon Devil and **THE GERMS** need no introduction to anyone who should care. **THE GERMS** second single and the first ever release for the legendary Slash label. First wave Los Angeles punk rock royalty with a solid gold three pronged force 45. Their star shone extremely strongly for an incredibly short time before their demise. A star that still shines in the aftermath of their end.

Influential to those who came after and ran with the punk rock baton. This is the last edition due to popular demand.

"Throwback retro" edition. One colour, double sided, fold over wrap around sleeve and black vinyl. Much like the 1978 version, just printed nicer this time around!

MARKETING POINTS:

- RSD 2017 version went within days of being announced.
- Last chance at this.
- Featuring a very young Pat Smear of the Foo Fighters on guitar.

For Fans of: JOHN LEE HOOKER, JR. KIMBROUGH, KID CONGO, REIGNING SOUND, BLACK KEYS, MORPHINE

The band name may be a bit of a challenge, but the music is pure unadulterated bliss. It's time to forget all those posturing pseudo tough guy bands spewing cliché-ridden/regurgitated angst (do we really need to recreate the worst part of the 90's (which was recreating the worst part of the 70's) again??) Might you instead perhaps consider a sublimely spirited substitute?? This debut U.S. release from Finland's notorious bubblegum punk sensations, **HAVE YOU EVER SEEN THE JANE FONDA AEROBIC VHS?** is a keyboard-driven melodic kick successfully replacing the customary/tired "rock" guitar fare. It's easy to see why they have never struggled to get people's attention. This double LP contains 21 tracks of insanely glorious and deeply infectious commotion that just may give you something to smile about...We could all use something to smile about.

MARKETING POINTS:

- Debut U.S release by very popular group in Scandinavia, Europe and U.K.
- double LP/great price
- Limited edition of 1000 copies
