CROM

The Cocaine Wars 1974-1989, LP/CD

Street Date: APRIL 14, 2023

ARTIST HOMETOWN: Los Angeles, CA

KEY MARKETS: California, Texas, New York, Sweden

FOR FANS OF: **CROSSED OUT, NO COMMENT, CHARLES BRONSON, INFEST, SPAZZ**

CROM is the ultimate amalgamation of mystery mixed with futility. They are one of the most frustratingly undefinable bands out there – mixing general metal aesthetic into a stew of subgenres ranging from sludge and doom to perfectly cultivated thrash parts and plenty of punk, hardcore, and powerviolence influence spices to get a perfect boiling mixture that has been thought about and talked about since it came out originally in 2001. The original release came out on a band member's label alongside releases from **DYSTOPIA, GRIEF, EYEHATEGOD**, and 16 to name a few and **CROM** is fully deserving to stand next to those bands. In 2023 we have taken the original masters and given them the white glove treatment and enlisted Nick Townsend whose mastering and audio work includes such big releases from **JIMI HENDRIX** to **PEARL JAM** to **DR DRE** to **NAILS** to the DIY likes of **REGIONAL JUSTICE CENTER** and **FIREBURN**. Nick worked with Phil from the band to create a perfect representation of what this release needed to sound bigger and fuller in the over twenty-year time since it came out. This definitive edition is the best sounding time capsule of what the band really encompasses and deserves. Similar attention has been given to the artwork, with freshly scanned Carlos Vera artwork and the vinyl version has the cover art sized perfectly to fit it's gatefold cover. The resulting release will have you smashing high gravity Steel Reserve along side the band. To quote the mostly unreleased unofficial **CROM** documentary trailer "How does the audience respond to **CROM**? By either leaving or losing their fucking mind". This record will make you do the latter.

MARKETING POINTS:

- Critically important first full length of this highly mysterious band
- Major remaster with audio work done alongside band members
- Members are also in **DEPISE YOU, TRAPPIST**, and **BIG BUSINESS**
- Gorgeous full color gatefold or full color CD booklet depending on version
- Highly sought-after record's first remastering since its release

MAN IS THE BASTARD, JOHN WEISE,
PHARMAKON, WOLF EYES, INFEST,
CROSSED OUT

Do you remember the Judgement Night soundtrack? An interesting shmash-up of hip hop and metal/rock musicians tossed together to create a memorable compilation. Well, this isn't quite like that but it is a collab split features two amazing hardcore bands from different countries utilizing experimental noise artists to lay noise in the perfect places to enhance and elevate the songs. **TRANSIENT** brings both blast-beats and hair-raising riffs ala **CATTLEPRESS**, while Eric Wood aka **BASTARD NOISE** weaves in anxiety-inducing buzzes and blips. Two songs in four minutes will leave you with your jaw agape and you will pick up your needle and listen to the ending multiple times. On the flip-side are two very competent Japanese bands, representing the blasters are Osaka's **COMPLETED EXPOSITION**. **CXE** are a three piece who utilize two bass players who both sing and a more than competent drummer. The noise component is Tokyo's 黒電話666 aka **BLACKPHONE666**. Their side sounds like **SPAZZ** playing a concert at the end of existence where time and space has started warping. To Live A Lie continues to be a DIY underground label who continues to stay the line of cutting-edge releases, and this split collab is a perfect example of taking hardcore punk/power violence and stepping up the style. Both groups and both noise artists are at the top of their game, and we couldn't be more excited of this output.

MARKETING POINTS:

- Collab split featuring bands and noise artists at the top of their game
- Full color 4/4 cover to add the bit of red to the front and lots of red inside
- High quality pressing
- Eric Wood from **BASTARD NOISE** is known from **MAN IS THE BASTARD**, **CROSSED OUT**, and **PHC** amongst others
